

Parental Involvement, School Complaints and Discipline

Parents are always made welcomed in school to help with reading, extra curricular activities and visits. Foundation Stage parents are encouraged to join their children in their new class to settle in their learning environment. If there is a need to make contact over concerns the usual procedure is to make a mutually convenient appointment with your child's classteacher concerning school-work. The Headteacher and senior staff deal with matters of policy. Parents are encouraged to make immediate contact with the school if a child is unhappy about an incident during the school day.
